TICKER: DUTMX

## Annual Shareholder Report: June 30, 2025

This annual shareholder report contains important information about the Taxable Municipal Bond Series (the “Fund”) for the period from July 1, 2024, to June 30, 2025. You can find additional information about the Fund at [www.dupree-funds.com/documents](http://www.dupree-funds.com/documents). You can also request this information by contacting us at (800) 866-0614 or [info@dupree-funds.com](mailto:info@dupree-funds.com).

### What were the Fund costs for the last year?

(Based on a hypothetical \$10,000 investment)

The table below explains the costs that you would have paid within the reporting period.

Fund	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Taxable Municipal Bond Series	\$70	0.70%

### How did the Fund perform last year?

Longer-dated taxable municipal bonds generally underperformed shorter-dated taxable municipal bonds during the 12-month period ended June 30, 2025 (the “Review Period”). Shorter-dated bonds benefited from cuts to the fed funds rate, while yields on the long end of the yield curve climbed (lower prices) in response to an unexpected rebound in consumer-price inflation.

The Fund provided a total return of 4.00% during the Review Period which was lower than the Bloomberg Taxable Municipal Bond Index (“Taxable Muni Index”) which provided a total return of 5.54%. The Fund’s underperformance was due primarily to the fact that it had an average nominal maturity of 18.27 years versus 14.12 years for the Taxable Muni Index.

During the Review Period, the Fund’s use of its current investment strategy did not cause the performance to deviate materially from the manager’s expectations. We do not plan to change the investment strategy of the Fund substantially in the upcoming year.

## How has the Fund historically performed?

The following graph compares the initial and subsequent account values at the end of each of the most recently completed 10 fiscal years of the Fund. It assumes a \$10,000 initial investment at the beginning of the first fiscal year in an appropriate broad-based securities market index for the same period.

The Bloomberg Taxable Municipal Index tracks performance of investment-grade fixed income securities issued by state and local governments whose income is not exempt from tax, issued generally to finance a project or activity that does not meet certain “public purpose/use” requirements. The index is unmanaged and reflects no expenses. It is not possible to invest directly in an index.

Average annual total return values (as of June 30, 2025):

	1 Year	5 Years	10 Years
Taxable Municipal Bond Series	4.00%	(2.81)%	0.91%
Bloomberg Taxable Municipal Bond Index	5.51%	(0.43)%	3.13%

**The Fund's past performance is not a good predictor of the Fund's future performance.**

*The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.*
