

Taxable Municipal Bond Series

TICKER: DUTMX

Annual Shareholder Report: June 30, 2026

This annual shareholder report contains important information about the Taxable Municipal Bond Series (the "Fund") for the period from July 1, 2025, to June 30, 2026. You can find additional information about the Fund at www.dupree-funds.com/documents. You can also request this information by contacting us at (800) 866-0614 or info@dupree-funds.com.

What were the Fund costs for the last year?

(Based on a hypothetical \$10,000 investment)

The table below explains the costs that you would have paid within the reporting period.

Fund	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Taxable Municipal Bond Series	\$86	0.86%

How did the Fund perform last year?

Longer-dated taxable municipal bonds generally outperformed shorter-dated taxable municipal bonds during the 12-month period ended June 30, 2026 (the "Review Period"). The Federal Reserve cut the fed funds rate three times during the Review Period, causing yields to decline and bond prices to rise.

The Fund provided a total return of 5.23% during the Review Period which was higher than the Bloomberg Taxable Municipal Bond Index ("Taxable Muni Index") which provided a total return of 5.13%. The Fund's outperformance was due primarily to its longer average nominal maturity of 17.89 years, versus 13.99 years for the Taxable Muni Index, which made the Fund more sensitive to the declining yields during the Review Period and resulted in greater price appreciation relative to the Taxable Muni Index.

During the Review Period, the Fund's use of its current investment strategy did not cause the performance to deviate materially from the manager's expectations.

How has the Fund historically performed?

The following graph compares the initial and subsequent account values at the end of each of the most recently completed 10 fiscal years of the Fund. It assumes a \$10,000 initial investment at the beginning of the first fiscal year in an appropriate broad-based securities market index for the same period.

The Bloomberg Taxable Municipal Index tracks performance of investment-grade fixed income securities issued by state and local governments whose income is not exempt from tax, issued generally to finance a project or activity that does not meet certain “public purpose/use” requirements. The index is unmanaged and reflects no expenses. It is not possible to invest directly in an index.

Average annual total return values (as of June 30, 2026):

	1 Year	5 Years	10 Years
Taxable Municipal Bond Series	5.23%	(2.38)%	0.55%
Bloomberg Taxable Municipal Bond Index	5.13%	(0.11)%	2.42%

The Fund’s past performance is not a good predictor of the Fund’s future performance.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.
