

North Carolina Tax-Free Income Series

TICKER: NTFIX

Annual Shareholder Report: June 30, 2026

This annual shareholder report contains important information about the North Carolina Tax-Free Income Series (the "Fund") for the period from July 1, 2025, to June 30, 2026. You can find additional information about the Fund at www.dupree-funds.com/documents. You can also request this information by contacting us at (800) 866-0614 or info@dupree-funds.com.

What were the Fund costs for the last year?

(Based on a hypothetical \$10,000 investment)

The table below explains the costs that you would have paid within the reporting period.

Fund (Class)	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
North Carolina Tax-Free Income Series	\$70	0.70%

How did the Fund perform last year?

Longer-dated municipal bonds generally outperformed shorter-dated bonds during the 12-month period ended June 30, 2026 (the "Review Period"). The Federal Reserve cut the fed funds rate three times during the Review Period, causing yields to decline and bond prices to rise.

The Fund provided a total return of 7.13% during the Review Period, which was higher than the total return of 7.03% provided by the Bloomberg Municipal Bond Index (the "Muni Index"). The outperformance of the Fund was due primarily to the fact that it had a longer nominal maturity of 14.05 years versus 13.39 years for the Muni Index, which gave the Fund greater sensitivity to interest rate changes and allowed it to benefit more from the decline in yields during the Review Period.

During the Review Period, the Fund's use of its current investment strategy did not cause the Fund's performance to deviate materially from the manager's expectations.

How has the Fund historically performed?

The following graph compares the initial and subsequent account values at the end of each of the most recently completed 10 fiscal years of the Fund. It assumes a \$10,000 initial investment at the beginning of the first fiscal year in an appropriate broad-based securities market index for the same period.

The Bloomberg Municipal Bond Index is considered representative of the broad market for investment grade, tax-exempt municipal bonds with a maturity of at least one year. The index is unmanaged and reflects no expenses. It is not possible to invest directly in an index.

Average annual total return values (as of June 30, 2026):

	1 Year	5 Years	10 Years
North Carolina Tax-Free Income Series	7.13%	0.46%	1.50%
Bloomberg Municipal Bond Index	7.03%	1.05%	2.14%

The Fund's past performance is not a good predictor of the Fund's future performance.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.
